Restriction/Election

1. Restriction to one of the following inventions is required under 35 U.S.C. § 121:

I. Claims 1-39, 45-61, 64-70, 73-102, 106 and 107 drawn to microelectrodemechanic system mirror device, classified in Class 359, subclass 290.

II. Claims 40-44, 62, 63, 71, 72 and 103-105, drawn to the method of fabrication electrical device, classified in class 438, subclass 21.

The inventions are distinct, each from the other because of the following reasons: the invention I discloses apparatus of the device and invention II discloses a method of using semiconductor for manufacturing the device.

Each of the invention, I and II, recites limitations not recited in any of the other invention. The differing limitations make the inventions I and II patentably distinct from one another, i.e. a reference that anticipates or makes obvious one of the inventions I and II would not, by itself, anticipate or make obvious any of the remaining invention.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

2. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently

named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR1.48(b) and by the fee required under 37 CFR1.17(i).

Conclusion

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tuyen Tra whose telephone number is (703) 306-5712. The examiner can normally be reached on Monday to Friday from 8:30am to 6:00pm.
